SKYNET TECHNOLOGIES

Reading Mask

The reading mask improves concentration on specific content. By putting up reading mask, it will highlight the page elements which are underneath the cursor.

High Contrast

Increase the contrast of all website elements with a High Contrast color theme. It will sharply contrast all elements, texts, buttons, and form fields with one click.

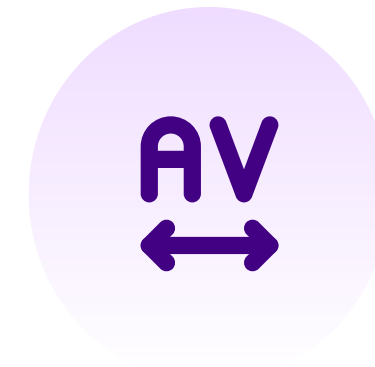

Adjust Font Sizing

Font size can be adjustable according to users requirements.

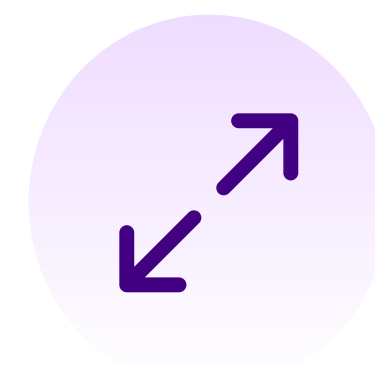

Line Height

Get more comfortable spacing for all on-site text with the Adjust Line Height option.

Adjust Letter Spacing

Text and line spacing can be modified, thus, dyslexic, and visually impaired users get benefit. All in One Accessibility® offers a significant level of adjustment for a readable and personalized experience.

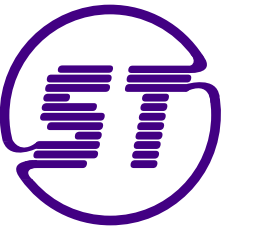

Content Scaling

It allows users to scale visual content including images, text, graphs, illustrations, etc. to zoom in and zoom out.

All in One Accessibility®

Free widget (23 Features)

SKYNET TECHNOLOGIES

Readable Fonts

By clicking on this, it will replace any fancy fonts with simple readable fonts.

Align Left

For more personalized and accessible experience, it will allow to change the alignment of the text at left.

Align Right

For more personalized and accessible experience, it will allow to change the alignment of the text at right.

Align Center

For more personalized and accessible experience, it will allow to change the alignment of the text at center.

Hide Images

By enabling this feature, it will hide all images of site and displays the text only.

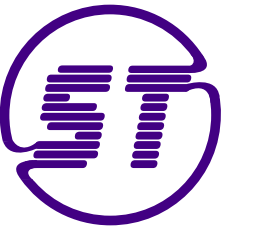

Highlight Links

It focuses on links, buttons, and other action elements in high contrast colors which are easy to recognize. Also, highlight clickable components for better and easier website usability and accessibility.

All in One Accessibility[®]

Free widget (23 Features)

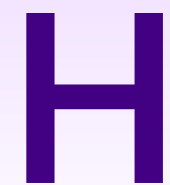

SKYNET TECHNOLOGIES

Text Magnifier

Text Magnifier works as a virtual magnifying glass which allows to enlarge the selected text area.

Highlight Title

It will highlight the titles and help users and assistive technology to understand the structure of the page and its components.

Auto-Detect Language

It automatically identifies the browser language and adjusts the All in One Accessibility widget language accordingly, delivering a seamless experience for users in their native language without requiring manual adjustments.

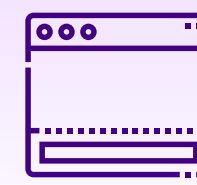

Skip to Content

Puts a webpage in a text only, reading-focused mode.

Skip to Menu

It will allow quick access to the footer on the page.

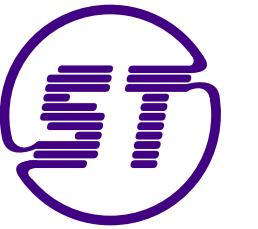

Skip to Footer

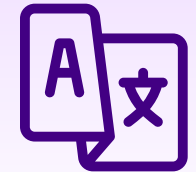

It will allow quick access to the footer on the page.
